Construction is Coming To Your Area

Endwell Drive Drinking Water Pipe Replacement Project

charlottewater.org

Drinking Water Improvement Project

Starting the week of April 5th, Charlotte Water (CLTWater) and contractor C and D Utility will replace existing 2-inch galvanized steel pipe (GSP) water pipes with new water main under the Endwell Drive.

During Construction

Construction will last an estimated four weeks. Construction can be loud, dirty and inconvenient. Crews will be using heavy equipment and storing materials on-site. Construction will take place beside the road in the road right-of-way.

Property Access (Driveway)

Construction activities will take place within the street right-of-way. However, driveway and sidewalk access may be limited at times. If you need assistance, please talk to contractor or call project inspector. Please alert us to invisible fence, irrigation systems, and other underground improvements to your home near the street.

Lane Closures and Street Parking

Street Parking may be restricted when construction is in the immediate area. Flaggers will help drivers navigate around any lane closures.

Water Outages

In the unexpected event of a water service interruption, the issue will be treated as an emergency and repairs will be made to restore service as quickly as possible.

Flowing Hydrants

Residents may see water flowing from hydrants as part of construction activities.

Project Contacts

Project Coordinator - Olivier Veille, 704-336-7461 or Olivier.Veille@charlottenc.gov.

Project Inspector - Enzo Martucci, 980-721-0225 or Fiorenzo.Martucci@charlottenc.gov
