The Five Points Plaza Project was identified in the West Trade Street-Rozzelles Ferry Comprehensive Neighborhood Improvement Program and is currently in the design phase.

The project will make connections between Johnson C. Smith University's green space and the neighborhood, creating better waiting spaces for transit. The improvement area will serve as a space for the public waiting on transit, walking and biking to the Stewart Creek greenway, Johnson C. Smith University, Old Savona Mills, Martin Luther King Park and businesses along the West Trade Street Corridor.
