

Wastewater Improvement Project

Irwin Creek to Remount Road

You're invited to attend a virtual community meeting

You're invited to a virtual public meeting to learn more about upcoming construction work for a wastewater system improvement project in your area.

Contractors for Charlotte Water, led by BRS, Inc. and STV, Inc., will begin construction for the Irwin Creek to Remount Road Wastewater Improvement Project in April 2022. Crews will be working in the Brookhill and South End neighborhoods. Once completed, this project will enhance pipe performance, provide increased wastewater capacity for current and future customers, and protect the water quality in Irwin Creek.

This public information meeting is for residents and businesses in the Brookhill and South End neighborhoods. During the virtual presentation, project representatives will share more details about the wastewater system capacity needs, proposed plans and construction activities and timeline. Participants will be able to submit questions during the WebEx Event, which will be addressed during the meeting's Q&A.

VIRTUAL PUBLIC MEETING **Thursday, March 31, at 5:30 PM**

To register and for more information on this project, please visit the project webpage at bit.ly/IrwinRemount, or by visiting CharlotteWater.org (click on "projects"). If you're unable to join the meeting, a recording will be added to the webpage for playback. If you have questions, please contact Charlotte Water project manager Mac McClanahan, 704-995-7489, Mac.McClanahan@charlottenc.gov.
