

# Little Hope Creek Wastewater Improvement Project: Phase 2

## Field Visit Notice

NOVEMBER 2021

## Charlotte Water is continuing field investigation work in your area for an important wastewater improvement project that will enhance the future wastewater system in the community.

**During the week of November 15, project team members including Charlotte Water, Black & Veatch and Park Construction, will be walking the alignment of the existing wastewater system to survey fences within the future construction corridor.** Residents can expect to see team members on or near your property as they visually inspect the area. No field work will be conducted during this walk.

The team members should be wearing safety vests and can be identified by company business cards or ID badges. Although they may need access to your property, including entering fenced in areas, they will not need to enter your residence. Charlotte Water recommends residents keep pets inside if they are apprehensive toward strangers. Please note, schedules are subject to change due to weather and other conditions.

For more information on this project, please visit the project website at [www.charlottewater.org](http://www.charlottewater.org) (click on "projects") or contact Charlotte Water project manager Stephen Scott, at [Stephen.Scott@charlottenc.gov](mailto:Stephen.Scott@charlottenc.gov) or 980-219-9488.
