WHAT: Charlotte Water (CLTWater) will be performing wastewater pipeline field testing along the Mallard Creek Greenway. This testing will guide the work of future projects in the area.

WHEN: Starting on June 8th, 2020 for approximately two to three weeks, weather depending. Crews will work daily from 7:00 am through 6:00 pm.

WHERE: The field testing will take place along Mallard Creek Greenway in the area near N. Tryon Street. See map on reverse side.

WHAT TO EXPECT:
• Mallard Creek Greenway will be closed near N. Tryon St.
• Bypass pumping and heavy construction equipment along Mallard Creek Greenway near N. Tryon St.
  • Temporary pumps, generators and above ground pipes
  • Crews will monitor pumps to minimize odor and noise, and they will only run during work periods
