Construction is Coming To Your Area Soon

McAlpine Creek Relief Sewer Project Phase 4
Charlotte Water is planning to install a new wastewater pipe to serve neighborhoods along McAlpine Creek between Independence Boulevard and Lawyers Road. Construction will start fall 2018.

- The project will add more than 18,000 feet of wastewater pipe to serve neighborhoods along McAlpine Creek.
- Major roads like Idlewild Road, Margaret Wallace Road, and Lawyers Road will be tunneled under.
- When finished the project will enhance pipe performance, provide increased wastewater capacity for current and future customers and protect the water quality of McAlpine Creek.
- Phases 1 - 3 were completed downstream.
- CLTWater user fees (i.e. water bill) fund these improvement projects.

Fall 2018 to Fall 2020

Construction of the new pipe will occur in construction easements along McAlpine Creek. CLTWater is acquiring easements from property owners beside creek.
