

CHARLOTTE

## McKee Road/Providence Road Intersection Project

April 2016

### ***Building Value for Charlotte***

The relocation of utilities will soon begin on the McKee Road/Providence Road Intersection Project.

See reverse for more details.

*Additional travel lanes to improve capacity for motorists and sidewalk and bicycle connections will be included as part of the project.*

CHARLOTTE

## McKee Road/Providence Road Intersection Project

April 2016

### ***Building Value for Charlotte***

The relocation of utilities will soon begin on the McKee Road/Providence Road Intersection Project.

See reverse for more details.

*Additional travel lanes to improve capacity for motorists and sidewalk and bicycle connections will be included as part of the project.*

## McKee Road Providence Road Intersection Project

Tree removal will soon begin with relocation of utilities to follow on the McKee Road/Providence Road Intersection project. Utility relocation is necessary prior to constructing planned roadway improvements. Overhead utilities will be relocated on Ballantyne Commons Parkway at Providence Promenade Drive to McKee Road at Tilley Morris Road, as well as Providence Road north and south of the intersection. Work will include setting new poles, installing new cable and fiber and removing old poles within the acquired right-of-way and easements.

The relocation of overhead and underground utility lines can be lengthy, due to the complicated nature of the work, and must be completed by the utility companies ahead of street construction work. We will continue to keep you informed of utility work progress.

The project will provide bicycle and sidewalk connections, along with additional travel lanes to improve capacity for motorists. Design improvements at the intersection include an additional southbound left turn lane on Providence Road, a new eastbound left turn lane on Ballantyne Commons Parkway and an eastbound thru lane beginning on Ballantyne Commons Parkway and ending at Tilley Morris Road.

We will continue to keep you informed on the status of this project.
