PLAN** Creating Charlotte's
Future, Together.

#CLTFUTURE

CharlotteNC.gov/projects

Construction is now complete. Landscaping crews will be on site during planting season this fall to replace a few street trees removed during construction. Private utilities may be on site periodically for final utility relocations. The City thanks you for your patience during this project.

This project replaced the bridge on Michael Baker Place that spans Briar Creek. The design included sidewalks and an upgraded classic concrete bridge rail.

If you have any questions please contact the project manager Allison Brickey at 704-621-5916 or abrickey@charlottenc.gov.
