CLTFUTURE

CharlotteNC.gov/projects

Construction activities will begin in June. On July 9, 2018, Michael Baker Place will be closed between Fairfax Drive and Runnymede Lane and will remain closed for the duration of construction, which is expected to be complete by April 2019. City staff along with the contractor, Dane Construction, will make every effort to minimize inconveniences during construction.

This project will replace the bridge on Michael Baker Place that spans Briar Creek with a structure that will handle cars as well as pedestrians. The design includes sidewalks and an upgraded classic concrete bridge rail. The project team will continue to keep you informed on the status of this project and appreciates your patience.

If you have any questions please contact the project manager Allison Brickey at 704-621-5916 or abrickey@charlottenc.gov.
