Water Main Installation Along Mt. Harmony Church Road (Marglyn Drive to 2300 block of Mt. Harmony Church Road)

Charlotte Water (CLTWater) is planning to install a water main along Mt. Harmony Church Road soon. You will see heavy equipment and pipe deliveries starting on January 30th. Pipe installation will start at the Marglyn Drive intersection on February 4th. Construction will last at least one month

One Lane Open on Mt. Harmony Church Road

Construction activities will take place within the street right-of-way and close the southbound / outbound lane during construction. Flaggers will assist drivers around the construction zone.

Clearing

Crews will remove trees and debris from the pipe alignment (western side of Mt. Harmony Church Road) as soon as January 30th.

Planned Water Outages

Staff will notify affected customers of planned water outages 72-hours in advance. Any unplanned water outages are considered emergencies and will be repaired as soon as possible.

Discolored Water is Possible

Construction may cause temporary cloudy, discolored water or lower than usual pressure. If you experience some discoloration in your water:

1. Run the cold water from your outside spigot or tub for 15 minutes.
2. When the water runs clear, run cold water through any taps where discolored water is present.
3. If not clear, call 311 to report issues.
