Construction is Coming To Your Area

Piedmont Park Neighborhood
Water Pipe Replacement Project
Starting week of April 13th, Charlotte Water (CLTWater) and Propst Construction will start construction to replace existing galvanized steel pipe (GSP) and cast iron (CIP) water pipes with new water pipes within the areas listed below:

1. Central Avenue (10th Street to Independence Boulevard)
2. Piedmont Street (between Jackson Avenue and Sunnyside Avenue)
3. Jackson Avenue
4. Prospect Street

**During Construction**

Construction will start on Jackson Avenue at Prospect Street. This work will be completed before July 15, 2020. Construction on Central Avenue will start in Fall 2020 or later.

Construction can be loud, dirty and inconvenient. Crews will be using heavy equipment and storing materials on-site. Construction will take place beside the road in the road right-of-way. Please be aware of your surroundings near the construction site and report any safety concerns to the project inspector as soon as possible. Learn more at charlottewater.org (Projects, Construction, Piedmont Park).

**Property Access (Driveway)**

Construction activities will take place within the street right-of-way. However, driveway and sidewalk access may be limited at times. If you need assistance, please talk to contractor or call project inspector. Please alert us to invisible fence, irrigation systems, and other underground improvements to your home near the street.

**Lane Closures and Street Parking**

Street Parking may be restricted when construction is in the immediate area. Flaggers will help drivers navigate around any lane closures.

**Planned Water Outages**

Staff will notify affected customers of planned water outages 72-hours in advance. Any unplanned water outages are considered emergencies and will be repaired as soon as possible.

**Discolored Water is Possible**

Construction may cause temporary cloudy, discolored water or lower than usual pressure. If you experience some discoloration in your water:

1. Run the cold water from your outside spigot or bathtub for 15 minutes.
2. When the water runs clear, run cold water through any taps where discolored water is present.
3. If not clear, call 311 or 704-336-7600 to report issues.

**Flowing Hydrants**

Residents may see water flowing from hydrants as part of construction activities.

**Project Contacts**

Project Coordinator - Olivier Veille, 704-336-7461 or Olivier.Veille@charlottenc.gov.

Project Inspector - Enzo Martucci, 980-721-0225 or Fiorenzo.Martucci@charlottenc.gov.

We appreciate your input. Let us know how we are doing at charlottewater.org/feedback. Thank you.
