Drinking Water Project Update

On Friday, June 25th and Saturday, June 26th, Charlotte Water (CLTWater) and contractor Dallas 1 will make the final connections to the new water pipes serving Garinger High School property, Meadow Lane, and Academy Street.

Lane Closure and Night Time Work

- Crews will work Friday night and Saturday to make the final connections under East Sugar Creek Road at Academy Street.
- East Sugar Creek Road will narrow to one lane for each direction at Academy Street.
- Academy Street will be closed at East Sugar Creek Road.
- Residents of Academy Street (between East Sugar Creek Road and Meadow Lane) will use Anderson Street and Meadow Lane as an alternate route.

Water Outages

In the unexpected event of a water service interruption, the issue will be treated as an emergency and repairs will be made to restore service as quickly as possible.

Flowing Hydrants

Residents may see water flowing from hydrants as part of construction activities.

Restoration

Properties that lost grass during construction will be reseeded and covered with straw. Our project inspector can assist with restoration questions.

What should I do if I experience discolored water?

Charlotte Water is committed to providing safe drinking water throughout Mecklenburg County. If you experience discolored or cloudy water, please run cold water until it clears. If it doesn't clear up within 15 minutes, please let us know by calling 311 or 704-336-7600 anytime.

Does my plumbing need to be replaced?

Just as pipes under the street age and have an end-of-service, so does plumbing from the meter to your home and plumbing inside your home. Plan for the eventual replacement of plumbing that has already provided 50 years of service.

Who do I call about ...?
