Construction is Coming To Your Area

Cooper Drive, Ebb Place, Gentry Place, & Sandridge Road (Gentry Place to Currituck Drive) Drinking Water Pipe Replacement Project

charlottewater.org

Drinking Water Improvement Project

Starting week of June 1st, Charlotte Water (CLTWater) and contractor HG&L will begin replacing existing water pipes serving; Cooper Drive, Ebb Place, Gentry Place, and Sandridge Road (Gentry Place to Currituck Drive). The contractor will start on Gentry Place and Sandridge Road (Gentry Place to Currituck Drive).

During Construction

Construction can be loud, dirty and inconvenient. Crews will reduce disruptions where possible. Crews will use heavy equipment and store materials on-site. Please be aware of your surroundings near the construction site and report any safety concerns to the project inspector as soon as possible.

Property Access (Driveway)

Construction will take place in the road and within the road right-of-way (portion of property closest to the road that is owned by the property owner and available for the city to use for street maintenance or utilities work) or designated construction areas.

Driveway and sidewalk access may be limited at times. Please talk to contractor or call project inspector if a vehicle is in your way or if you experience any difficulties with the project.

Please alert us to invisible fence, irrigation systems, and other underground improvements to your home near the street.

Lane Closures and Street Parking

Street Parking may be restricted when construction is in the immediate area. Flaggers will help drivers navigate around any lane closures.

Water Outages

In the unexpected event of a water service interruption, the issue will be treated as an emergency and repairs will be made to restore service as quickly as possible. Customers will be notified several days in advance of any planned water outages.

Flowing Hydrants

Residents may see water flowing from hydrants as part of construction activities.
