Beaverdam Creek Wastewater Project

WHAT: Charlotte Water is planning to install a new wastewater pipe to serve customers along Beaverdam Creek between Loch Glen Way to Garrison Road.

Attend a virtual public meeting on October 20th at 11:00 am. Log in at charlottewater.org > Projects > Construction > Beaverdam Creek Wastewater Project. The presentation will be recorded and posted on the webpage.

WHEN: Construction is scheduled to start late October or early November 2020 near Loch Glen Way. Construction is estimated to be complete by end of summer 2021.

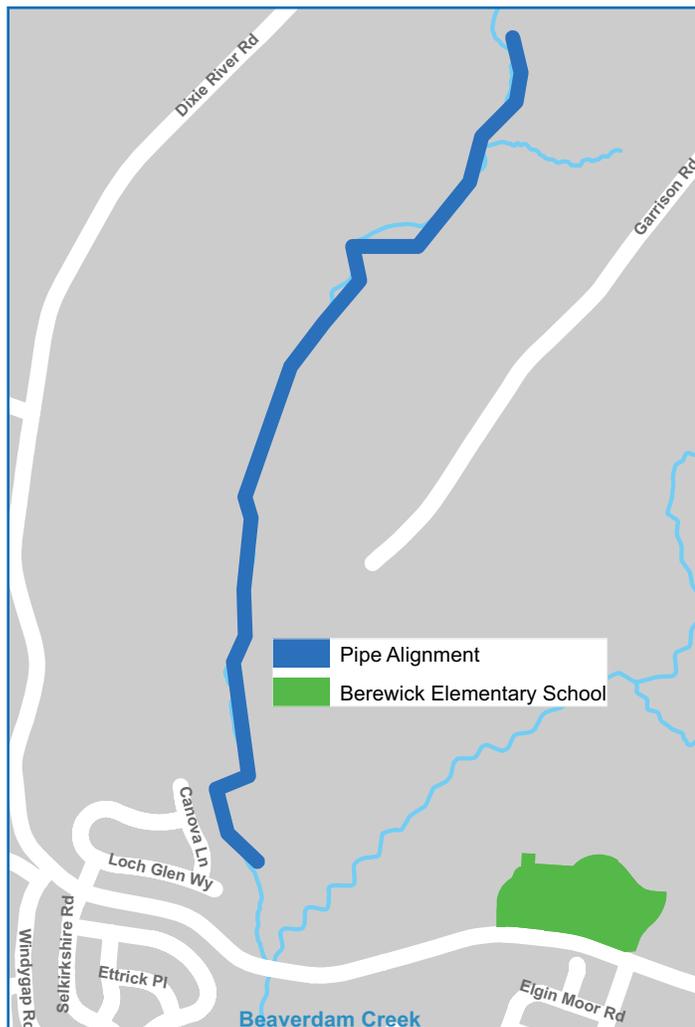

WHERE: Installation of the new pipe will occur in construction easements.

WHAT TO EXPECT:

Clearing - CLTWater removes trees, shrubs, bushes, and other vegetation inside the construction easement before installing the wastewater pipe. When and where possible, trees on the edge of the temporary construction easement are preserved. Clearing is estimated to take several weeks.

Pipe delivery and storage – Pipes, large manholes, and other materials are delivered and stored within the construction easements and road right-of-ways.

Establishing a safe work zone – Fencing will be put in place and pipe will be stabilized to prevent it from moving.

Trench digging will be more than twenty-feet deep.

Customers may feel a rumble

- Crews may remove rock formations by use of small blasting.
- Areas along the alignment where blasting is required will be determined shortly after site clearing.
- Residents within a 500 foot radius of the blasting sites will be contacted in advance.
- Blasting is a standard construction procedure and all safety precautions will be taken.
- Residents may hear a warning horn and feel a slight vibration or rumble similar to a slammed door or thunder.

Construction traffic (excavators, dump trucks) will be along the creek, within the easements or road right-of-way. Roads will be open during the project.

This is one of many CLTWater projects in the area. Visit www.charlottewater.org (click on “projects” drop down, then construction, and select Beaverdam Creek West Tributary Project) for updates on progress. Major updates will also be emailed via Nextdoor.

We appreciate your input. Let us know how we are doing at charlottewater.org/feedback. Thank you.
