Construction is Coming
To Your Area in 2021

Queens Road West
Water Pipe Replacement Project
Charlotte Water (CLTWater) is planning to replace water pipes under:

1. Queens Road West from Wellesley Avenue to Selwyn Avenue.
2. East Boulevard near Queens Road West.

In a heightened effort to maintain constant water service, Charlotte Water has reassigned crews to focus on work that will cause the fewest interruptions in water service to customers.

The Queens Water Main Replacement Project was originally scheduled to start in Spring 2020, but has now been rescheduled to begin in 2021.

This project remains a top priority for Charlotte Water. We will continue to update you as the new schedule is finalized, aiming to minimize as many inconveniences as possible.

You can check on the status of the project here: www.charlottewater.org (click on Projects, then Construction, then Queens Road West Water Pipe Replacement Project).
