The project has received authorization from the North Carolina Department of Transportation to proceed with the bid phase.

During the bid phase, the city uses a competitive bidding process to procure the services of contractors to build the project. By state law, the construction contract is awarded to the lowest responsible bidder. Construction is expected to begin in late 2021.

We appreciate your patience as we work to complete this important project and will continue to keep you updated on the status.

WE'RE IN THIS TOGETHER, CHARLOTTE
