# Soil Testing Coming to Your Area Soon

# Goose Creek Wastewater Extension to Cresthill Drive

# Goose Creek Wastewater Extension Project

February 1, 2022

Charlotte Water is planning a project to extend wastewater service beside Goose Creek between Early Meadow Way to Cresthill Drive. The alignment is 90% designed and representatives will reach out to property owners soon about easement acquisitions.

## Next Step

Starting February 21, 2022, representatives from Catawba Valley Engineering & Testing will conduct subsurface investigations (also known as test pit or soft dig) to assess soil and rock conditions along the proposed pipe alignment. The personnel will their company's logo on clothing and vehicles.

While it may be necessary for City of Charlotte and/ or our contractor's staff to enter your property in order to access the sanitary sewer alignment during the field investigations, they will not need to enter your residence.

A drill rig (smaller than the one photographed on the front of the postcard) is used to drill below the ground surface to determine the presence of rock. This process involves drilling a hole roughly 4 inches in diameter and upward of 20 feet deep. Dirt will be placed back in the hole.

## Duration

Less than a month.

## Clearing

Some bushes and other vegetation on the property may be removed to access boring locations near the creek.

## Flags

In some areas flags and stakes may be placed in the vicinity of the planned sewer alignment and residents are asked to not remove these stakes, as they are imperative to completing the design of this project. Crews will be working between 8 a.m. and 5 p.m. and do not expect any disruption to customers from this work.

If we determine that this project will have any direct impact on your property, we will notify you further as the project progresses.

Thank you for your cooperation and patience as we move forward with this project. If you have any questions about this project, please call me at 704-995-7489 or email [Mac.McClanahan@charlottenc.gov](mailto:Mac.McClanahan@charlottenc.gov).
