Building Value for Charlotte

Construction will begin in February on the South Tryon Street Sidewalk Project. This project is part of the City’s Sidewalk Program to enhance connectivity, offer transportation choices and improve pedestrian safety.

February 2017
South Tryon Street Sidewalk Project

The bid phase is complete on the South Tryon Street Sidewalk Project. On November 14, City Council awarded the construction contract to Little Mountain Builders of Catawba County Inc. and construction is expected to begin the first week of February.

This project will include the construction of sidewalk along the south side of South Tryon Street from Tyvola Road to Nations Ford Road. Work will be performed within the right-of-way or acquired easements. Improvements will include sidewalk, planting strips, accessible ramps, driveways, pedestrian refuge island, bus pads, retaining walls and storm drainage (where applicable).

The City will make every effort to minimize the impact of construction. We will continue to keep you informed on the status of this project. We appreciate your patience.
