# Construction is Coming Soon

## Furman Place, Grice Court, and Oglethorpe Place Drinking Water Pipe Replacement Project

December 2021

# Water Replacement Project Update

Starting the week of January 17th, Charlotte Water (CLTWater) and contractor, Dallas 1, will start construction to replace existing water pipes. Construction will take at least two months.

## During Construction

Construction can be loud, dirty and inconvenient. Crews will reduce disruptions where possible. Crews will be using heavy equipment and storing materials on-site. Construction will take place in and beside the roadway within the right-of-way. Please be aware of your surroundings near the construction site and report any safety concerns to the project inspector as soon as possible.

## Property Access (Driveway)

Construction will take place in the road and within the road right-of-way (portion of property closest to the road that is owned by the property owner and available for the city to use for street maintenance or utilities work) or designated construction areas. Driveway and sidewalk access may be limited at times. If you need assistance, please talk to contractor or call project inspector. Please alert us to invisible fence, irrigation systems, and other underground improvements to your home near the street.

## Lane Closures and Street Parking

Street Parking may be restricted when construction is in the immediate area. Flaggers will help drivers navigate around any lane closures.

## Water Outages

In the unexpected event of a water service interruption, the issue will be treated as an emergency and repairs will be made to restore service as quickly as possible. A planned water outage will be required at the end of the project to connect the new pipe.
