# Construction is Coming To Your Area

## South Colonial Avenue Water Pipe Replacement Project

[charlottewater.org](http://charlottewater.org)

# Drinking Water Improvement Project

Starting June 8th, Charlotte Water (CLTWater), contractor RH Price Construction will replace existing water mains with new water mains under South Colonial Avenue. Crews will also abandon a small diameter water pipe under Caswell Road.

## During Construction

Construction will last an estimated four weeks. Construction can be loud, dirty and inconvenient. Crews will be using heavy equipment and storing materials on-site. Construction will take place beside the road in the road right-of-way. Please be aware of your surroundings near the construction site and report any safety concerns to the project inspector as soon as possible.

## Lane Closures and Street Parking

South Colonial Avenue (between South Caswell Road and Providence Road) will be closed to through traffic. Drivers will be detoured onto South Caswell Road and Providence Road.

Street Parking may be restricted when construction is in the immediate area. Flaggers will help drivers navigate around any lane closures.

## Planned Water Outages

Staff will notify affected customers of planned water outages 72-hours in advance. Any unplanned water outages are considered emergencies and will be repaired as soon as possible.

## Discolored Water is Possible

Construction may cause temporary cloudy, discolored water or lower than usual pressure. If you experience some discoloration in your water:

1. Run the cold water from your outside spigot or tub for 15 minutes.
2. When the water runs clear, run cold water through any taps where discolored water is present.
3. If not clear, call 311 to report issues.

## Flowing Hydrants

Residents may see water flowing from hydrants as part of construction activities.
