Construction is Coming To Your Area Soon

Steele Creek Wastewater Pipe Project
(Westinghouse Boulevard to Carowinds Boulevard)
Wastewater Pipe Improvements

WHAT: Charlotte Water is planning to install a new wastewater pipe to serve neighborhoods along Steele Creek between Carowinds Boulevard and Westinghouse Boulevard. Construction will start June 2019.

- The project will add more than 11,000 feet of wastewater pipe to serve neighborhoods along Steele Creek.
- Major roads like Carowinds Boulevard, South Tryon Street, and Westinghouse Boulevard will be tunneled under.
- When finished the project will enhance pipe performance, provide increased wastewater capacity for current and future customers, and protect the water quality of Steele Creek.
- Charlotte Water fees (i.e. water bills) fund these improvement projects.

WHEN: Construction will start in June and last at least a year.

WHERE: Construction of the new pipe will occur in construction easements along Steele Creek. CLTWater is acquiring easements from property owners beside creek.

QUESTIONS: Please visit the project website at www.charlottewater.org (click on “projects” then Steele Creek Wastewater Pipe Project) for updates on progress.

If you have a question, please call Irene “Tesha” Okioga at 704-336-1063 or Irene.Okioga@charlottenc.gov or Cam Coley at 704-336-1018 or ccoley@charlottenc.gov.

Construction zones will be large enough for excavators and dump trucks to move.
