WHAT: Charlotte Water (CLTWater) and Dellinger Construction are installing a new wastewater pipe to serve customers in the along Steele Creek between Carowinds Boulevard and Westinghouse Boulevard.

WHEN: Construction started July 2019 and will be completed by early 2021.

COMPLETED:
- Approximately 6,000 feet of pipe is installed so far.
- Installed pipe between Carowinds Boulevard and South Tryon Street.
- Tunneling under John Price is completed.

SUMMER 2020:
- Tunneling at Carowinds Blvd and South Tryon St has started.
- Start and complete tunneling under the Railroad tracks between S. Tryon and John Price
- Rock blasting will continue towards Westinghouse Blvd
- Continue large diameter pipe installation and start smaller diameter connections in late summer/early fall.

WHERE: Installation of the new pipe will occur in construction easements.

WHAT TO EXPECT:
Customers may feel a rumble
- Crews may remove rock formations by use of small blasting.
- Areas along the alignment where blasting is required will be determined shortly after site clearing.
- Residents within a 500 foot radius of the blasting sites will be contacted in advance.
- Blasting is a standard construction procedure and all safety precautions will be taken.
- Residents may hear a warning horn and feel a slight vibration or rumble similar to a slammed door or thunder.

Construction traffic (excavators, dump trucks) will be along the creek, within the easements or road right-of-way. Roads will be open during the project.

This is one of many CLTWater projects in the area. Visit www.charlottewater.org (click on “projects” drop down, then construction, and select Steele Creek Wastewater Project) for updates on progress. Major updates will also be emailed via Nextdoor.

We appreciate your input. Let us know how we are doing at charlottewater.org/feedback. Thank you.
