December 7, 2018

Charlotte Water (CLTWater) and R.H. Price Inc. are installing a new wastewater pipe to serve neighborhoods near Stevens Creek. Construction will start early December. The location construction is starting at is on the County’s property housing the Nature Preserve Visitor Center.

Construction will be loud, dirty and inconvenient. Crews will be using heavy equipment and storing pipes and other materials on-site. Any damages due to construction will be restored. Please be aware of your surroundings near the construction site and report any safety concerns to the project inspector as soon as possible.

**Clearing**
Mid-December through January, crews will remove trees, shrubs, bushes, and other vegetation inside the construction easement before installing the wastewater pipe. When and where possible, trees on the edge of the easement are preserved.

**Heavy Equipment (Dump Trucks) on Streets**
Construction activities will take place within the easements near the creek. However, expect to see more construction traffic on Thompson Road. If you need assistance, please talk to contractor or call project inspector.

**Customers May Feel a Rumble**
Crews may remove rock formations by use of small blasting. Areas along the alignment where blasting is required will be determined shortly after site clearing. Residents within 500 foot radius of the blasting sites will be contacted. Blasting is a standard construction procedure and all safety precautions will be taken. Residents may hear a warning horn and feel a slight vibration or rumble similar to a slammed door or thunder. Blasting will be conducted Monday through Friday during daylight hours as needed during construction.

**Restoration**
Crews will complete a temporary restoration of anything disturbed by construction. Final restoration may occur after completing a phase or entire project. Our project inspector can assist with restoration questions. Properties that lose grass during construction will be reseeded and covered with straw.

**Contacts**
Project Inspector: Bruce Twyman at 704-578-0193
Project Manager: Nicole Bartlett, PE, 704-336-1007, nbartlett@charlottenc.gov
