Street Closure Notice: Lyndhurst Avenue between Magnolia Avenue to Iverson Way on Wednesday, May 16, 2018 to Wednesday, June 13, 2018

Charlotte Water (CLTWater) provides potable water and sanitary sewer services throughout Mecklenburg County. In the effort to maintain quality service, CLTWater must occasionally replace water mains.

The water and sewer replacement group within CLTWater has started construction to replace an existing 2-inch galvanized steel pipe (GSP) and 6-inch cast iron pipe (CIP) with new 6-inch water mains on Iverson Way. This closure is necessary for the installation of a new 8-inch water main on Lyndhurst Avenue to connect to an existing main on Iverson Way.

Street Closure Notice: Lyndhurst Avenue between Magnolia Avenue to Iverson Way

Lyndhurst Avenue between Magnolia Avenue to Iverson Way will close on Wednesday, May 16, 2018 and will reopen on Wednesday, June 13, 2018. This closure will be opened daily in the evenings.

This road will be closed to all through traffic.

Property Access: Construction activities will take place within the street right-of-ways. Driveway and sidewalk access may be limited at times. Our construction inspector will notify property owners and minimize time if a driveway is inaccessible to a few hours. On-street parking will be temporarily unavailable in construction zone. Please make sure that vehicles are parked in the driveway. Please do not enter the construction zone.

Local access to residences and businesses will be maintained.

Detour: Motorists will be detoured using Magnolia Avenue, Winthrop Avenue, Dorothy Drive, and Iverson Way.

CATS will not be affected.

Please visit the project website by going to www.charlottewater.org and select 'Projects' to view updates.

Contact: If you have questions, please call the Charlotte Water Project Inspector, Alex Tettmar, at 980-287-5623 or email at alex.tettmar@charlottenc.gov.

Thank you for your patience and support while we complete this project in your community.
