The project has received authorization from the North Carolina Department of Transportation to proceed with the bid phase. During the bid phase, the city uses a competitive bidding process to procure the services of contractors to build the project. By state law, the construction contract is awarded to the lowest responsible bidder. Construction is expected to start in early 2021 and should be complete by mid-2022.

We appreciate your patience and understanding as we construct this important project.

WE'RE IN THIS TOGETHER, CHARLOTTE
