Wastewater Improvements Are On The Way

Win Hollow Pump Station Elimination Project
**WHAT:** Charlotte Water (CLTWater) and RH Price Construction are planning to install a new wastewater pipe to eliminate the Win Hollow Wastewater Pump Station on Win Hollow Court.

**WHEN:** Clearing is estimated to start the week of April 13th 2020. Construction is scheduled to start late April and will be complete by end of August 2020.

**WHERE:** Installation of the new pipe will occur in construction easements. The pump station will be removed and restored to grass. Crews will access area via Plaza Road Extension and Faires Road. Crews will start construction near Plaza Road Extension.

**WHAT TO EXPECT:**

**Clearing** - CLTWater removes trees, shrubs, bushes, and other vegetation inside the construction easement before installing the wastewater pipe. When and where possible, trees on the edge of the temporary construction easement are preserved.

**Pipe delivery and storage** – Pipes, large manholes, and other materials are delivered and stored within the construction easements and road right-of-ways.

**Establishing a safe work zone** – Fencing will be put in place and pipe will be stabilized to prevent it from moving.

**Trench digging**

**Customers may feel a rumble** - Crews may remove rock formations by use of heavy equipment drilling into the rock. Residents may hear a warning horn and feel a slight vibration or rumble similar to a slammed door or thunder.

**Construction traffic** (excavators, dump trucks) will be within the easements. Roads will be open during the project.

**PROJECT CONTACTS:**

Project Coordinator - Stephen Scott, 980-219-9488 or Stephen.Scott@charlottenc.gov.

Project Inspector - Tim Milam, 704-995-7486 or Timothy.Milam@charlottenc.gov.
