

# Alanhurst/Cherrycrest

storm drainage improvement project

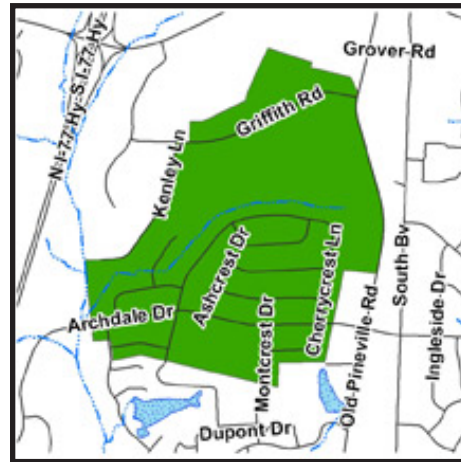

YOUR STORM WATER FEES AT WORK

August 3, 2015

Charlotte-Mecklenburg Storm Water Services held its third public meeting on July 7 at St. Andrew's United Methodist Church. Only a few property owners attended the meeting. Therefore, no formal presentation was made, but instead the project team individually discussed the project plan to the individual property owners and explained how the improvements would alleviate current drainage problems.

The Project Team discussed the preliminary construction drawings and the easement acquisition process with property owners. Next steps include starting the real estate phase and the process of easement acquisition. Property owners will be contacted directly by Stephen and Josh Frey of Professional Land Management, LLC regarding easement acquisition for their property. Stephen and Josh are the City of Charlotte's acquisition agents for this project.

For more information about this project or to view the PowerPoint presentation, please visit [stormwater.charmeck.org](http://stormwater.charmeck.org).
