

Bonwood

Storm Drainage Improvement Project

Utility relocations coming soon

Project Status

January 2021

Charlotte-Mecklenburg Storm Water Services is reviewing utilities (for example, water, gas, electric, phone, cable TV and internet) within the project area. This review process will allow the project team to determine which utility relocations will be necessary for construction of the Bonwood Storm Drainage Improvement Project.

Your property may be marked with flags or paint indicating a utility. Please do not remove these markings. Residents will be notified at a later date regarding the timing and relocation of the utilities. Some property owners may experience short service disruptions during utility relocations.
