

Bonwood

Storm Drainage Improvement Project

Survey crew coming soon

Project Status

July 2020

Charlotte-Mecklenburg Storm Water Services and engineering consultant Armstrong Glen, P.C. have started the design phase. As part of this work, Survey & Mapping Control, Inc. will evaluate the storm drainage system on S. Canterbury Road and Canterbury Hill Circle.

Representatives may need to enter your property to collect additional survey data on the existing system. While state law authorizes access to private property, no building or structure will be entered or disturbed. The survey work is scheduled to begin in August and take about one month to complete.
