

Camp Greene Street

June 2019

Project Status

Charlotte-Mecklenburg Storm Water Services hired consultant D&A Wolverine, PLLC and their surveyor Survey Mapping Control, Inc. to study possible improvements to the storm drainage system in the Camp Greene Street project area. Representatives may need to enter your property to collect survey data on the existing storm drainage system. While state law authorizes access to private property, no building or structures will be entered or disturbed. The survey work is scheduled to begin in July and take several weeks to complete.

Investing in Infrastructure

Storm Water Services designs and constructs projects that make a difference in the lives of residents across the city. Our community benefits when stormwater quickly drains off roads, flood risks to homes are reduced and the health of local streams is protected or improved.
