Cedars East Storm Drainage Improvement Project

Dear Resident:

We need your input. Charlotte-Mecklenburg Storm Water Services has identified your neighborhood for possible storm water system improvements to address structure and road flooding. The Cedars East Minor Storm Drainage Improvement Project covers approximately 48 acres between the Idlewild apartments at Idlewild Drive and Cedars East Court (just east of Independence Boulevard) and the culvert under Amity Place.

This project is in the early planning stages and we would like you to help us identify problems with the culverts, storm drainage systems and creeks in your area. Please complete the enclosed questionnaire, even if you have not experienced problems, and return by March 26, 2010. Postage is prepaid.

We will use customer service requests (311 calls), your questionnaire responses and field review analysis to refine the project limits. After this has been done a public meeting will be scheduled to discuss the problem areas and improvements. Thank you for your input and we look forward to working with you.

If you have any other questions or concerns related to the project, please contact Project Manager Matthew Anderson at 704-336-7923 or manderson@charlottenc.gov.
