

Craighead/ Tryon

Storm Drainage Improvement Project

Additional survey information needed

Project Status

December 2021

Charlotte-Mecklenburg Storm Water Services and engineering consultant LandDesign, Inc. are finalizing the planning phase. Additional survey information is needed for the Craighead/Tryon Street area.

Representatives may need to enter your property to collect survey data on the existing system. While state law authorizes access to private property, no building or structure will be entered. The survey work is scheduled to begin in December and take about a month to complete.
