

Craighead/ Tryon

Storm Drainage Improvement Project

Survey crew coming soon

Project Status

February 2020

Charlotte-Mecklenburg Storm Water Services hired consultant LandDesign, Inc. and their surveyor LDSI, Inc. to study possible improvements to the storm drainage system in the Craighead/Tryon area. Representatives may need to enter your property to collect survey data on the existing storm drainage system. While state law authorizes access to private property, no building or structure will be entered or disturbed. The survey work is anticipated to begin in March and take several weeks to complete.
