Storm Drainage Improvement Project

Bid phase is underway

Project Status

June 2021

Charlotte-Mecklenburg Storm Water Services and engineering consultant WSP have completed the design phase and acquired all easements needed for construction. The bid phase has started, and the final design plans will be circulated to qualified contractors for a competitive bidding process. Once City Council awards the contract, construction will be scheduled. A virtual public meeting will be held to share more about construction in the neighborhood. An invitation will be sent in advance.

During the next few weeks, these activities may be underway: locating, flagging, marking and relocating utilities.
