## Storm Drainage Improvement Project

## Construction coming soon\*

## Project Status

August 2020

Charlotte-Mecklenburg Storm Water Services will begin construction soon. On Aug. 10, City Council awarded the construction contract to Sealand Contractors. Construction is scheduled to start in September and is estimated to take one year.

During the next few weeks, these activities may be underway:

- Locating, flagging, marking and relocating utilities
- Installing new power poles and lines in some locations

Partial or full road closures along Hampton Avenue may be necessary as utilities are relocated. The contractor will maintain access to the neighborhood, with signs assisting motorists. An inspector will be on site daily to address questions. Please visit [StormWater.CharMeck.org](http://StormWater.CharMeck.org) for project updates and more information.
