

Hastings

Storm Drainage Improvement Project

Survey crew coming soon

Project Status

July 2020

Charlotte-Mecklenburg Storm Water Services is working with HDR and their surveyor, CES Group, to evaluate the storm drainage system in the Hastings Drive area. Representatives may need to enter your property to collect survey data on the existing system. While state law authorizes access to private property, no building or structure will be entered or disturbed. The survey work is scheduled to begin in July and is estimated to take about two months to complete.
