## Storm Drainage Improvement Project

**Construction coming soon**

## Project Status

April 2021

Charlotte-Mecklenburg Storm Water Services will begin construction soon. On Feb. 8, City Council awarded the construction contract to OnSite Development, LLC. Construction is scheduled to start in May and is estimated to take two years.

During the next few weeks, these activities may be underway:

- Locating, flagging, marking and relocating utilities
- Clearing for construction and utility relocations
- Confirming survey data

Survey representatives may need to enter your property to mark the locations of proposed construction work. While state law authorizes access to private property, no building or structure will be entered or disturbed.
