

Hinsdale/Tinkerbell

Storm Drainage Improvement Project

September 2018

Project Status

Charlotte-Mecklenburg Storm Water Services and Armstrong Glen, P.C. continue to work on the final design plans and related environmental permits as part of the permitting process.

Next Steps

The next step will be the bid phase. During this phase, the final plans will be circulated to qualified contractors for a competitive bidding process. The bid phase typically lasts seven to eight months. Once City Council awards the contract, construction will begin.

Investing in Infrastructure

Storm Water Services designs and constructs projects that make a difference in the lives of residents across the city. Our community benefits when stormwater quickly drains off roads, flood risks to homes are reduced and the health of local streams is protected or improved.

The project goal is to reduce street and structure flooding throughout the neighborhood and address stream erosion.
