

Lilly Mill

Storm Drainage Improvement Project

November 2018

Project Status

Construction continues on the Lilly Mill Storm Drainage Improvement Project. Please do not move or remove any stakes. They guide the location of construction and the contractor's work limits.

Construction Highlights

- Construction entrance and tree protection fence have been installed and trees within the work area have been removed.
- Several utility conflicts have been resolved.

Next Steps

- Contractor plans to install storm drains and a new sanitary sewer system at the intersection of Lilly Mill Road and Tattersall Drive during the winter months.
- Contractor also plans to install a box culvert on Lilly Mill Road between Ramblewood Lane and Whiffletree Road in the late winter to early spring. The existing gas line will be relocated in advance of the culvert installation.
- Signed detours around the work zones will be in place.

Investing in Infrastructure

Storm Water Services designs and constructs projects that make a difference in the lives of residents across the city. Our community benefits when stormwater quickly drains off roads, flood risks to homes are reduced and the health of local streams is protected or improved.
