

Lincoln Heights

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

Dear Resident,

Charlotte-Mecklenburg Storm Water Services and consulting engineer, Armstrong Glen P.C., are reviewing the existing conditions analysis for the Lincoln Heights Storm Drainage Improvement Project. When the analysis is complete, a public meeting will be scheduled to present the findings and solicit input from residents and property owners. A notification with time and location will be mailed to you two weeks in advance of the meeting

south, and Beatties Ford Road to the west.

For more information about this project, please visit our website at <http://stormwater.charmeck.org> and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and Lincoln Heights**.

If you have any questions, please contact Project Manager Steven McCraney at smccraney@charlottenc.gov or 704-432-0967.

The project area boundaries are Interstate 85 to the north, Interstate 77 to the east, Lasalle Street to the

February 2014

Shade Your Stream

Property along creeks and lakes should be planted with native trees and shrubs.

ROOTS
Roots anchor the soil, reduce flood damage and take up excess fertilizers.

COOL TEMPERATURES
Shade keeps the water cool, allowing fish and aquatic life to thrive.

WILDLIFE HABITAT
Shaded streams provide valuable habitat for wildlife.

For more information about stream buffers, visit <http://stormwater.charmeck.org>
