

Lorna/Laburnum

Storm Drainage Improvement Project

Survey crew coming soon

Project Status

November 2021

Charlotte-Mecklenburg Storm Water Services is working with The Isaacs Group and their in-house surveyors to evaluate the storm drainage system in the Lorna/Laburnum project area.

Representatives may need to enter your property to collect survey data on the existing system. While state law authorizes access to private property, no building or structure will be entered or disturbed.

The survey work is scheduled to begin in November and take about two months to complete.
