

Louise Avenue

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

July 17, 2008

Dear Resident,

Charlotte-Mecklenburg Storm Water Services (Storm Water) held a public meeting on May 20, 2008 at the Belmont Community Center for the Louise Avenue Storm Drainage Improvement Project.

The meeting introduced the project, presented the existing storm drainage conditions and preferred design alternative, and discussed the Capital Improvement Program. Meeting highlights:

- Bob Wilson, Project Manager for the consulting firm US Infrastructure of Carolina, Inc. and Danée McGee, the City's Project Manager for Louise Avenue, are the citizens' primary contacts for this project.
- Videos which discuss the typical Capital Improvement Project, Easement Acquisition Process and Construction Process are available on the website at <http://www.charmeck.org/Departments/StormWater/video.htm>.
- Much of the storm sewer system identified for repair is along Hawthorne Lane, Kennon Street, and Thomas Avenue.

- Community involvement is important to the success of the project and the team would like to hear any concerns. Two more community meetings will be held in order to work with the citizens. The next meeting will be near the end of preliminary design to present the proposed improvements to residents. The final public meeting will be near the end of design to present the preliminary construction drawings and discuss impacts associated with the improvements. All individual citizen issues will be used in developing proposed solutions.

For more information about this project or detailed meeting minutes, please visit our website at <http://stormwater.charmeck.org> and click on **Storm Water Projects, Storm Water Projects** again, then **Louise**.

If you have any questions about this project, please contact the Project Manager, Danée McGee at dmcgee@ci.charlotte.nc.us or 704-336-4102.
