

# Lyon Court

## Storm Drainage Improvement Project

February 1, 2018

### **Project Status**

Charlotte-Mecklenburg Storm Water Services and engineering consultant LaBella Associates, have completed the real estate and permitting phases. Work continues on final utility coordination and finalizing the construction plans for the bid phase.

### **Next Steps**

During the bid phase, the final plans will be circulated to qualified contractors for a competitive bidding process. The bid phase typically lasts seven to eight months. Once City Council awards the contract, construction will begin.

## Investing in Infrastructure

Storm Water Services designs and constructs projects that make a difference in the lives of residents across the city. Our community benefits when stormwater quickly drains off roads, flood risks to homes are reduced and the health of local streams is protected or improved.

The Lyon Court project goal is to reduce street and structure flooding throughout the neighborhood and to address stream erosion.
