

Margaret Turner

Storm Drainage Improvement Project

June 2018

Project Status

Charlotte-Mecklenburg Storm Water Services and engineering consultant, The Isaacs Group, have acquired all easements and environmental permits needed for construction. Stakeholders have approved the design plans and the bid phase is next.

Next Steps

During the bid phase, the final plans will be circulated to qualified contractors for a competitive bidding process. The bid phase typically lasts seven to eight months. Once City Council awards the contract, construction will begin.

Investing in Infrastructure

Storm Water Services designs and constructs projects that make a difference in the lives of residents across the city. Our community benefits when stormwater quickly drains off roads, flood risks to homes are reduced and the health of local streams is protected or improved.

The Margaret Turner Project goals are to reduce street and structure flooding throughout the neighborhood.
