

Margaret Turner Road

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

Dear Resident:

Charlotte-Mecklenburg Storm Water Services has hired engineering consultant The Isaacs Group to study possible drainage improvements in the Margaret Turner project area. This project will focus on the storm drainage issues along Margaret Turner Road. This project will also analyze the downstream channel that flows from the Margaret Turner Road cul-de-sac north towards Pressley Road.

Representatives from Project Team may need to enter your property to collect survey data on the existing storm drainage system. While State law authorizes

access to private property for this purpose, no buildings or structures will be entered or disturbed.

For more information about this project, please visit our website at stormwater.charmeck.org and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and Margaret Turner Road**.

If you have any questions, please contact Project Manager Tom Purvis at tpurvis@charlottenc.gov or 704-336-3660.
