

This is being sent to all property owners and tenants along the Charlotte Myrtle Morehead Drainage Project and also various businesses and agencies. The project work continues along Oriole Street and also on McDowell Street. This email is to provide you with a project update concerning access on Oriole Street.

The work of placing the 90" concrete pipe along Oriole Street continues. This afternoon, the work zone has moved away from Morehead Street toward Lexington Avenue. This blocks the middle of Oriole Street; however, both ends of Oriole Street are open to traffic. Art's BBQ Restaurant, H&R Block and also Duke Endowment driveways are now reconnected to Oriole Street, and Oriole reconnected to Morehead Street. The work zone (excavation area) is contained inside the fence area in mid-block, and both ends of Oriole Street will continue to be the access for the work zone. The work zone will change again around the end of October.

As always, please keep alert to work crews and changing traffic patterns as you travel the entire work zone.

Please advise if you have any questions. I hope this information keeps you informed of the project's impacts on the area. This portion of work will mostly impact businesses and residences along Oriole Street.
