

# Raleigh

## Storm Drainage Improvement Project

### PROJECT STATUS

JULY 2022

Survey crew coming soon.

## PROJECT STATUS | JULY 2022

Charlotte-Mecklenburg Storm Water Services is working with Labella Associates, P.C. and their surveyor, Dunbar Geomatics, to evaluate the storm drainage system in the Raleigh Street/Sugar Creek Road area.

Representatives may need to enter your property to collect survey data on the existing system. While state law authorizes access to private property, no building or structure will be entered.

The survey work is scheduled to begin in August and take about two months to complete.
