Storm Drainage Improvement Project

Construction coming soon

Project Status

February 2021

Charlotte-Mecklenburg Storm Water Services and United of the Carolinas, Inc. will resume construction later this month. In August 2020, construction was put on hold due to private utility conflicts. Some utility relocations are complete while others will be done soon.

During the next few weeks, these activities may be underway: locating, flagging, marking and relocating utilities. An inspector will be on site daily and is your best contact to address construction-related questions.
