PROVIDE FEEDBACK FOR PINEVILLE/BALLANTYNE STUDY

During the LYNX System Update and the Regional Transit Engagement Series there was significant interest in rapid transit to Pineville and Ballantyne. In February 2019, the Metropolitan Transit Commission directed staff to continue the LYNX System Update study to evaluate rapid transit options, including a light rail extension, to the Town of Pineville and the community of Ballantyne.

CATS is taking a fresh look at transit opportunities in the Pineville and Ballantyne area and is seeking public input on transit goals, constraints, and opportunities in the South Charlotte corridor. CATS will engage residents in Pineville and Ballantyne through three phases of public outreach to better understand the most effective rapid transit modes and alignment. Find all the dates here.

Complete this survey to tell CATS what your transit priorities are in the Ballantyne and Pineville area.
