

TABLE OF CONTENTS

ABSTRACT

CHAPTER ES.0 EXECUTIVE SUMMARY

ES.1	Project Study Area.....	ES-1
ES.2	Purpose and Need for Action	ES-1
ES.3	Alternatives Considered.....	ES-2
ES.4	Summary of Transportation Impacts	ES-4
ES.5	Summary of Environmental Consequences	ES-5
ES.6	Mitigation Summary	ES-7
ES.7	Financial Analysis and Investment Impacts.....	ES-21
ES.8	Evaluation of Alternatives	ES-21
ES.9	Public and Agency Coordination.....	ES-23
ES.10	Next Steps	ES-23

CHAPTER 1.0 PURPOSE AND NEED

1.1	Introduction.....	1-1
1.2	Corridor Description.....	1-2
1.3	Travel Demand and Transportation Deficiencies	1-8
1.4	Goals and Objectives	1-11

CHAPTER 2.0 ALTERNATIVES CONSIDERED

2.1	Screening, Selection and Refinement Process.....	2-1
2.2	Definition of Alternatives.....	2-5

CHAPTER 3.0 TRANSPORTATION

3.1	Affected Environment	3-1
3.2	Environmental Consequences	3-15
3.3	Mitigation	3-36

CHAPTER 4.0 LAND USE, PUBLIC POLICY AND ZONING

4.1	Affected Environment	4-1
4.2	Environmental Consequences	4-14
4.3	Mitigation	4-20

CHAPTER 5.0 SOCIO-ECONOMIC CONDITIONS

5.1	Affected Environment	5-1
5.2	Environmental Consequences	5-4
5.3	Mitigation	5-9

CHAPTER 6.0 NEIGHBORHOODS, COMMUNITY SERVICES AND ENVIRONMENTAL JUSTICE

6.1	Affected Environment	6-1
6.2	Environmental Consequences	6-10
6.3	Mitigation	6-20

CHAPTER 7.0 VISUAL AND AESTHETIC CONSIDERATIONS

7.1	Affected Environment	7-1
7.2	Environmental Consequences	7-3
7.3	Mitigation	7-12
7.4	Coordination	7-12

CHAPTER 8.0	CULTURAL RESOURCES	
8.1	Affected Environment	8-1
8.2	Environmental Consequences	8-2
8.3	Mitigation	8-6
8.4	Consultation.....	8-6
CHAPTER 9.0	PARKLANDS	
9.1	Affected Environment	9-1
9.2	Environmental Consequences	9-4
9.3	Mitigation	9-7
CHAPTER 10.0	NATURAL RESOURCES	
10.1	Affected Environment	10-1
10.2	Environmental Consequences	10-5
10.3	Mitigation	10-7
CHAPTER 11.0	WATER RESOURCES	
11.1	Affected Environment	11-1
11.2	Environmental Consequences	11-5
11.3	Mitigation	11-11
CHAPTER 12.0	AIR QUALITY	
12.1	Legal and Regulatory Context.....	12-1
12.2	Affected Environment	12-2
12.3	Environmental Consequences	12-3
12.4	Mitigation	12-6
CHAPTER 13.0	NOISE AND VIBRATION	
13.1	Noise and Vibration Impact Assessment Guidelines	13-1
13.2	Affected Environment	13-5
13.3	Environmental Consequences	13-6
13.4	Mitigation	13-11
CHAPTER 14.0	ENERGY USE	
14.1	Affected Environment	14-1
14.2	Environmental Consequences – Direct Energy	14-1
14.3	Environmental Consequence – Indirect Energy	14-2
14.4	Mitigation	14-3
CHAPTER 15.0	HAZARDOUS AND CONTAMINATED MATERIALS	
15.1	Affected Environment	15-1
15.2	Environmental Consequences	15-2
15.3	Mitigation	15-5
CHAPTER 16.0	SAFETY AND SECURITY	
16.1	Affected Environment	16-1
16.2	Environmental Consequences	16-1
16.3	Mitigation	16-3
CHAPTER 17.0	ACQUISITIONS AND DISPLACEMENTS	
17.1	Acquisitions and Displacements.....	17-1
17.2	Mitigation	17-5

CHAPTER 18.0	CONSTRUCTION IMPACTS	
18.1	Construction	18-1
18.2	Construction Education and Outreach Plan	18-2
18.3	Construction Regulations	18-2
18.4	Construction Schedule	18-2
18.5	Construction Methods	18-2
18.6	Utilities	18-5
18.7	Transportation, Traffic and Parking	18-6
18.8	Land Use, Community Facilities and Businesses	18-6
18.9	Displacements and Relocation of Existing Uses	18-7
18.10	Visual and Aesthetic Qualities	18-7
18.11	Neighborhoods, Community Services and Environmental Justice	18-7
18.12	Air Quality	18-8
18.13	Noise and Vibration	18-8
18.14	Natural Resources	18-11
18.15	Water Resources	18-11
18.16	Cultural, Historical and Archaeological Resources	18-13
18.17	Parklands	18-13
18.18	Energy	18-13
18.19	Hazardous and Contaminated Materials	18-14
18.20	Safety and Security	18-14
18.21	Mitigation	18-15
CHAPTER 19.0	SECONDARY AND CUMULATIVE EFFECTS	
19.1	Definition of Terms	19-1
19.2	Affected Environment	19-1
19.3	Potential Secondary Effects	19-3
19.4	Potential Cumulative Effects	19-6
19.5	Commitment of Resources	19-10
19.6	Mitigation	19-11
CHAPTER 20.0	FINANCIAL ANALYSIS	
20.1	LYNX BLE Northeast Corridor Light Rail Project Capital Costs	20-1
20.2	Sources of Funds for General Capital Funds	20-2
20.3	Sources of Fund for Corridor Capital Projects	20-3
20.4	Capital Investment Program	20-5
20.5	Operating Program	20-8
20.6	Financial Projections	20-10
20.7	Forecast Risks	20-12
CHAPTER 21.0	EVALUATION OF ALTERNATIVES	
21.1	Project Goals and Effectiveness	21-1
21.2	Equity	21-6
21.3	FTA New Starts Criteria and Project Status	21-7
21.4	Summary and Significant Trade-Offs	21-10
CHAPTER 22.0	PUBLIC INVOLVEMENT AND AGENCY COORDINATION	
22.1	Scoping Process	22-1
22.2	Public Involvement Program	22-1
22.3	Project Mailing Lists	22-7
22.4	Environmental Justice Outreach	22-7
22.5	Agency Coordination	22-9
22.6	Continued Coordination, Required Permits and Agency Approvals	22-10

APPENDIX A: RESOLUTIONS
APPENDIX B: AGENCY CORRESPONDENCE
APPENDIX C: ACQUISITIONS AND EASEMENTS
APPENDIX D: LIST OF PREPARERS
APPENDIX E: DISTRIBUTION LIST
APPENDIX F: GLOSSARY
APPENDIX G: REFERENCES
APPENDIX H: LEGAL AND REGULATORY CONTEXTS/METHODOLOGIES

LIST OF TABLES

EXECUTIVE SUMMARY

- Table ES-1: Summary of Environmental Impacts
- Table ES-2: Summary of Mitigation

CHAPTER 1.0

- Table 1-1: Population and Employment, 2008 and 2030
- Table 1-2: Corridor Travel Times (minutes) AM Peak, 2009
- Table 1-3: Goals and Objectives for the LYNX BLE
- Table 1-4: FTA New Starts Criteria

CHAPTER 2.0

- Table 2-1: Alternatives Studied in Detail in MIS
- Table 2-2: Bus Service in Northeast Corridor for No-Build Alternative
- Table 2-3: Bus Service in Northeast Corridor for TSM Alternative
- Table 2-4: Park-and-Rides in Northeast Corridor for TSM Alternative
- Table 2-5: Proposed Stations for the Light Rail Alternative
- Table 2-6: Proposed Stations for the Light Rail Alternative – Sugar Creek Design Option
- Table 2-7: Bus Service in Northeast Corridor for Light Rail Alternative
- Table 2-8: Capital Costs for the Light Rail Alternative and the Light Rail Alternative – Sugar Creek Design Option, 2009
- Table 2-9: Summary of System-Wide Operating and Maintenance Costs

CHAPTER 3.0

- Table 3-1: Study Area Daily Trips by Purpose and Orientation, 2009 and 2030
- Table 3-2: Regional Daily Person-Trips by Mode, 2009 and 2030
- Table 3-3: Operating Characteristics for Routes Serving the Northeast Corridor, 2008
- Table 3-4: Annual Ridership for Routes Serving the Northeast Corridor
- Table 3-5: Northeast Corridor Routes Ranked by Schedule Adherence as Compared to System Average
- Table 3-6: 2009-2015 NCDOT TIP Programmed Transportation Projects within the Northeast Corridor
- Table 3-7: City of Charlotte CIP Programmed Improvements within the Northeast Corridor
- Table 3-8: Planned Future Roadway Improvements within the Northeast Corridor, 2030 and 2035 L RTP
- Table 3-9: Existing Daily Traffic Volumes, 2008
- Table 3-10: Existing Grade Crossings within the Northeast Corridor
- Table 3-11: Proposed Projects with Bikeways within the Northeast Corridor
- Table 3-12: Proposed Light Rail Headways by Service Period
- Table 3-13: Comparison of Headways for Bus Routes by Alternative, 2030
- Table 3-14: Transit Travel Times (minutes) for Selected Trips, AM Peak
- Table 3-15: Auto Travel Times (minutes) for Selected Trips, AM Peak
- Table 3-16: Daily Transit Trips by Purpose, 2030
- Table 3-17: Comparison of Total Trips by Mode, 2030
- Table 3-18: Northeast Corridor Bus Ridership Summary by Alternative, 2030
- Table 3-19: Light Rail Boarding Projections, 2030
- Table 3-20: Light Rail AM Peak Hour Directional Loads, 2030
- Table 3-21: Comparison of VMT and VHT, 2030
- Table 3-22: Growth Factors
- Table 3-23: North Tryon Street/US-29 Summary of Median Openings
- Table 3-24: North Tryon Street/US-29 Median Opening Locations
- Table 3-25: No-Build and Light Rail Alternatives, Delay and Level of Service by Intersection, 2030
- Table 3-26: Light Rail Alternative – Sugar Creek Design Option Delay and Level of Service by Intersection, 2030

Table 3-27: Light Rail Alternative (Sugar Creek Park-and-Ride Option 2) – Delay and Level of Service by Intersection, 2030
 Table 3-28: Light Rail Alternative Rail Crossing Summary
 Table 3-29: Light Rail Alternative – Sugar Creek Design Option Rail Crossing Summary

CHAPTER 4.0

Table 4-1: Summary of Potential Impacts on Land Use Policies

CHAPTER 5.0

Table 5-1: Population, Housing and Employment within ½-Mile of Stations, 2009
 Table 5-2: Local Revenue Sources
 Table 5-3: Projected Population, Housing and Employment within ½-Mile of Stations, 2030
 Table 5-4: Economic Effects of Construction Activity – Light Rail Alternative
 Table 5-5: Economic Effects of O&M – Light Rail Alternative, 2030
 Table 5-6: Summary of New O&M Jobs Created – Light Rail Alternative
 Table 5-7: Economic Effects of Construction Activity Light Rail Alternative – Sugar Creek Design Option

CHAPTER 6.0

Table 6-1: Summary of Northeast Corridor Neighborhood Demographics and Quality of Life Index
 Table 6-2: Community Services and Social Service Providers
 Table 6-3: Communities of Concern within the Study Area
 Table 6-4: Summary of Potential Impacts on Neighborhoods

CHAPTER 7.0

Table 7-1: Summary of Potential Impacts to Visual Resources

CHAPTER 8.0

Table 8-1: Summary of Potential Historic Resource Impacts

CHAPTER 9.0

Table 9-1: Summary of Potential Impacts on Park and Recreation Facilities

CHAPTER 10.0

Table 10-1: Federal and State-Listed Species in Mecklenburg County
 Table 10-2: Federally Endangered/Threatened Species in Mecklenburg County
 Table 10-3: Summary of Estimated Natural Resource Impacts

CHAPTER 11.0

Table 11-1: Description of Jurisdictional Streams in the Study Area
 Table 11-2: Jurisdictional Wetlands Located Within the Study Area
 Table 11-3: Summary of Estimated Stream Impacts
 Table 11-4: Summary of Estimated Floodplain Impacts
 Table 11-5: Summary of Estimated Wetland Impacts

CHAPTER 12.0

Table 12-1: NAAQS Attainment Status, 2009
 Table 12-2: Existing Maximum Carbon Monoxide Concentrations at Intersections, 2009
 Table 12-3: Maximum Carbon Monoxide Concentrations at Intersections by Alternative, 2030
 Table 12-4: Comparison of Regional Emissions for the No-Build and Light Rail Alternative, 2030
 Table 12-5: Light Rail Alternative Predicted Maximum Carbon Monoxide Concentrations at Parking Facilities, 2030

CHAPTER 13.0

Table 13-1: Ground-Borne Vibration (GBV) and Ground-Borne Noise (GBN) Impact Criteria for General Assessment

Table 13-2: Noise Monitoring Results – Existing Noise Exposure
 Table 13-3: Noise Impact General Assessment (2009) Category 1 and 2 Land Uses, Light Rail Alternative
 Table 13-4: Noise Impact General Assessment (2009) Category 1 and 2 Land Uses Light Rail Alternative – Sugar Creek Design Option
 Table 13-5: Needed Decibel Reductions for the Light Rail Alternative
 Table 13-6: Needed Decibel Reductions for the Light Rail Alternative – Sugar Creek Design Option

CHAPTER 14.0

Table 14-1: Comparison of 2030 Estimated Daily Energy Consumption
 Table 14-2: Comparison of Estimated Indirect Energy Consumption

CHAPTER 15.0

Table 15-1: State and Federal Database Review
 Table 15-2: Items of Concern/Hazardous Material Sites, Light Rail Alternative
 Table 15-3: Park-and-Ride Station Items of Concern/Hazardous Material Sites, Light Rail Alternative

CHAPTER 17.0

Table 17-1: Comparison of Property Acquisitions

CHAPTER 18.0

Table 18-1: Summary of Mitigation Techniques During Construction

CHAPTER 19.0

Table 19-1: Potential Secondary Project Effects
 Table 19-2: Mitigation Measures for Secondary Effects

CHAPTER 20.0

Table 20-1: Capital Cost Estimate (Thousands of Year of Expenditure Dollars)
 Table 20-2: Light Rail Alternative Scenario (\$-millions)
 Table 20-3: Light Rail Alternative – Sugar Creek Design Option Scenario (\$-millions)
 Table 20-4: 2030 Characteristics of Financial Scenarios
 Table 20-5: CATS Sources of Capital Funding and Expenditures - Light Rail Alternative
 Table 20-6: CATS Sources of Capital Funding and Expenditures - Light Rail Alternative – Sugar Creek Design Option Year-of-Expenditure Dollars (Thousands)
 Table 20-7: 2000-2020 CATS Sales Tax Revenue (millions)
 Table 20-8: 2010-2030 CATS Operating Revenue and Expense Light Rail Alternative Year-of-Expenditure Dollars (Thousands)
 Table 20-9: 2010-2030 CATS Operating Revenue and Expense Light Rail Alternative – Sugar Creek Design Option Year-of-Expenditure Dollars (Thousands)
 Table 20-10: 2010-2030 Capital and Operating Summary Forecast Year-Of-Expenditure Dollars (Thousands)

CHAPTER 21.0

Table 21-1: Comparison of Mobility Improvements
 Table 21-2: Comparison of Costs and Cost-Effectiveness
 Table 21-3: Summary of New Starts Criteria Ratings LYNX BLE Northeast Corridor Light Rail Project
 Table 21-4: Summary of the Proposed Alternatives versus the Project Goals

CHAPTER 22.0
